PDF Forms sample

Name:	PDF Forms
Filename:	servoy_sample_pdf_forms.servoy
Category:	TechniqueDisplay
Since:	
Level:	
Shipped sample:	Yes
SVN location:	
Dependencies:	PDF Support package, including the pdf_output and the PDF Forms plugin
Short description:	This example takes PDF forms that are stored inside the database and uses the PDF_forms plugin to open it in a browser. The webservice will then automatically add a "Submit" button to the form that will save the data back into the database.

This example takes PDF forms that are stored inside the database and uses the PDF_forms plugin to open it in a browser. The webservice will then automatically add a "Submit" button to the form that will save the data back into the database.

⚠ In order to use the PDF example, the optional "PDF Support" needs to be installed. If the "pdf_output" plugin is not listed under Plugins in the Solution Explorer in Servoy Developer, it is not installed. The PDF Support package can be selected during the installation of Servoy.
