Category:	SampleSolution
Since:	7.2
Level:	Beginner
Shipped sample:	No
SVN location:	<a href="https://svn.servoy.com/examples/ServoyMobileDemo">https://svn.servoy.com/examples/ServoyMobileDemo</a>
Dependencies:	PhoneGap
Short description:	<p>Demo solution showing the capabilities of the Servoy Mobile platform</p> <p>Currently show the following features in action:</p> <ol style="list-style-type: none"><li>1. Integration with PhoneGap BarcodeScanner plugin</li><li>2. Integration with the camera of mobile devices through PhoneGap's API</li></ol>

This sample solution for Servoy Mobile has been created to display the capabilities of the Servoy Mobile platform.

In it's current inception the displayed feature set contains:

1. Integration with the PhoneGap BarcodeScanner plugin
2. Integration with the camera of mobile devices through the Camera API of PhoneGap
3. Upload and storage of images taken using the Camera to the server
4. Custom Login form
5. Online Mode

To be included in next iterations of the sample:

1. Integration with the Contacts API of PhoneGap
2. Integration with the PhoneGap PushNotification plugin
3. Integration of a custom JavaScript library
4. Integration with device buttons, like the back or menu button (Android only)
