Short description:	Demo CRM solution showing the capabilities of the Servoy Mobile platform related to Sample CRM data
GIT location:	https://github.com/Servoy/servoy_samples

Currently show the following features in action:

- 1. Service solution to provide an offline data package to mobile and REST end-points for entity data CRUD actions.
- An account manager mobile app working with provided data, like personal CRM accounts, in order to edit these.
 email them from mobile device.
- 4. call them from mobile device.
- 5. When having Sample CRM open in web or smart client, data changes being pushed from mobile during sync will be noticeable.
