Short description:	Demo CRM solution showing the capabilities of the Servoy Mobile platform related to <a href="#">Sample CRM</a> data
GIT location:	<a href="https://github.com/Servoy/servoy_samples">https://github.com/Servoy/servoy_samples</a>

Currently show the following features in action:

1. Service solution to provide an offline data package to mobile and REST end-points for entity data CRUD actions.
2. An account manager mobile app working with provided data, like personal CRM accounts, in order to edit these.
3. email them from mobile device.
4. call them from mobile device.
5. When having [Sample CRM](#) open in web or smart client, data changes being pushed from mobile during sync will be noticeable.
