8.1.2 RC

Previous release notes of the 8.1.1

Components	Key	Summary
Developer	SVY-10629	Cannot deselect "Check meta data" in .servoy export
Developer, DLTK	SVY-8724	CodeCompletion not working properly on globals
Developer	SVY-10643	Web packages dependencies are not installed inside the correct solution
Developer	SVY-10410	Sponsoring Offer: Parameter to switch off additional comments in function headers
Developer, NGClient	SVY-10601	Regression with editing button's text in editor
Developer	SVY-10620	Faulty navigation with arrows
Developer	SVY-10619	When you add records at runtime more then the pageSize the pagination control is added over the last row of the table, instead of below
Developer	SVY-10635	Sample importing from welcome should give a nicer error when failing
Developer	SVY-10435	Customise defaults for importing a solution
Developer	SVY-10240	Option on (selection of) forms to add to a (existing) workset
Developer	SVY-10692	war exporter page order
Developer	SVY-10701	Can't access/change Solution properties
Developer	SVY-10726	The functions form.getBodyPart() and form.getFooterPart() are not working properly.
Developer	SVY-10644	Code completion for in-memory data sources don't work in some situations
Developer	SVY-10522	@typedef defined inparent form is not defined in the subsequent children form
Developer, Server	SVY-10693	UUID not created by default within the servoy admin panel
Developer	SVY-10737	Upon startup of Svy8 Developer a browser url is opened.
Developer, NGClient	SVY-10730	Tooltip dismiss delay
Developer	SVY-10763	war export: last exported components are not remembered
Developer	SVY-9940	JSunit: Dollar sign in method name throws exception, tests are not run
Developer	SVY-10416	Function "getDatasource" on JSDataSource is misspelled
Developer, NGClient, SmartClient, WebClient	SVY-10673	JSDataSet.createDataSource("justname") doesn't work when data is from a sql select for inmem database
Developer, Server	SVY-10506	upgrade Tomcat in 7 and 8
Developer	SVY-9853	Let i18n editor by default select a language for which a file exists
Developer	SVY-10502	event properties don't show undefined when the value is in the frm file but doesn't match to a method
Developer	SVY-10388	multiselect in form designer works strange when holding shift key
Developer	SVY-10478	New form editor does not show selection when elements are moved with arrow keys
Developer	SVY-10622	Servoy suggests a PK column when creating in-memory datasources that is not managed in any way
DLTK	SVY-10616	Relations involving UUID columns pointing to in-memory tables give error in designer
Extensions	SVY-10516	Table Component - API
Extensions, NGClient	SVY-10583	tablecomponent: multi select support
Extensions	SVY-6019	Support HTTP Patch method in Restful Webservice plugin
Extensions	SVY-6020	Support HTTP Patch method in HTTP plugin
Extensions, NGClient	SVY-10623	(Phase 3) tablecomponent: generate empty space above (to 0) and below (to foundset.serverSize)
Extensions	SVY-10599	sub-report not found issue on foundset based jasperreport

Extensions	SVY-10464	Support the Jaspersoft Studio 6.3.0 (v6.3.0) Published: 2016-Jun-24
MobileClient	SVY-10631	Unwanted footer added to mobile app when header is set
MobileClient	SVY-10588	Mobile page stops scrolling after the keyboard pops up
NGClient	SVY-10415	Table Component - OnCellRightClick
NGClient	SVY-10528	Multi-select listbox - getSelectedElements function returns error
NGClient	SVY-10436	Add table component property min-width (servoy-extra)
NGClient	SVY-10439	Split pane resize weight does not work in NG Client
NGClient	SVY-10445	On setColumnResize=tru padding is gone from table components colmns
NGClient	SVY-10282	Table Component - Support Multi-Select
NGClient	SVY-10518	busy cursor only showing briefly when logging in
NGClient	SVY-10487	Component - Proper (Nav) Menu
NGClient	SVY-10431	Table Component Sort Image
NGClient	SVY-10596	Admin page settings for NG Client need to be reconsidered
NGClient	SVY-10567	NG Client: PDF Viewer Component
NGClient	SVY-10577	NGClient: Datetime picker missing fix from main boostrap project
NGClient	SVY-10586	Browser generates exception on resource "http://localhost:8080/js/angular_i18n/angular-locale_.js"
NGClient	SVY-10324	ngclientutils.setOnUnloadConfirmationMessage does not set the given message
NGClient	SVY-10197	Last node level in DBTreeView should not have the expand icon
NGClient, SmartClient, WebClient	SVY-10488	foundset.sort(String) is not generating the proper SQL when sorting related data from the same table using different relationship
NGClient, WebClient	SVY-10362	The return of the "loginForm" property
NGClient	SVY-10642	Starting a browser without language settings prevent the client from starting
NGClient	SVY-10723	HTML_AREA JavaScript links break in IE
NGClient	SVY-10743	rename favicon and create wiki page
NGClient	SVY-10756	NGClient deeplink not working when using custom login module
NGClient	SVY-10508	Compacted CSS files can't reference external files.
NGClient	SVY-10658	Configurable HTML Area Toolbar for NGClient
NGClient	SVY-10745	runtime form does not show records in NGClient
NGClient	SVY-10698	Fire event on column re-order/resize of extra table
NGClient	SVY-10752	SolutionModel form runs outside of window
NGClient	SVY-10751	performance optimizations for these stacks:
NGClient	SVY-10678	readOnly in a responsive tabpanel not applied
NGClient	SVY-10527	readOnly property textBox
NGClient, SmartClient, WebClient	SVY-10636	JSForm getters in solutionModel sometimes do not return anything when form inherits
NGClient, SmartClient, WebClient	SVY-10351	See the reason why foundset.OmitRecord() has failed
NGClient, Server, SmartClient, WebClient	SVY-9604	Collation of inmem table
NGClient, SmartClient, WebClient	SVY-10559	would not like the errors in the log about more then 500 records loaded into valuelist
NGClient	SVY-10779	Add style selectors to the Input and Select dialog boxes
NGClient	SVY-10739	plugins.window.showFormPopup doesn't work correct in NG
Server	SVY-10606	temp table inserts fail when integers are used
Server, WebClient	SVY-10634	Null Pointer Exception with web client
Server	SVY-10579	JSDataSet.createDataSource fails to guess types

Server	SVY-10580	JSDataSet.createDataSource fails to provide or "invent" column names
Server	SVY-10442	Need an import option that is lenient towards compatible database structure differences.
Server	SVY-10660	After upgrade svy8 server admin page shows html text
Server	SVY-10615	allow NOT IN operator in foundset or table filters
Server	SVY-10529	Clients screen in Servoy Server Admin page takes very long to display
Server	SVY-10742	PostgreSQL 9.6 pg_catalog change breaks Servoy's -upgradeRepository
Server	SVY-10659	server.getNextSequence will walk over all servers if this server was switched to.
SmartClient	SVY-10546	requestFocus() makes disappear one row of listview
SmartClient	SVY-10585	SmartClient Custom Theme in TinyLaf bug
SmartClient	SVY-10721	When foundset is in multiSelect form doesn't scroll to selected record
SmartClient	SVY-10621	White screens on certain laptops
SmartClient, WebClient	SVY-10700	Formatted fields using incorrect HALF_EVEN rounding scheme
WebClient	SVY-10494	Servoy 8.1.0 - build 3027 Type Ahead and UPPERCASE
WebClient	SVY-10489	When loading extra records in a listview a '\n' in a calculation is skipped when showing the output in a TEXT_AREA.
WebClient	SVY-10728	Table view with HTMLArea not clickable.
WebClient	SVY-10762	Internal error when navigating to form
