

8.3.2 RC

This release is for the most part for the Servoy NG Grid (aggrid), because we added support for a "map" property type: [Property+Types](#)

This map property type is just a key:value of string and primitives which are used to configure for the grid a few properties like "gridOptions" or "colDefs". But also "localeText" where the values of the keys can be an "i18n:xxx". Which will be resolved before sending it to the component.

Besides this the [Bootstrapper](#) has now support for native resources but can now also be used as a standalone starter. Because of the removal of Webstart in a future java version.

Components	Key	Summary
Developer, NGClient	SVY-12539	When a solution has type NG client only, forms have no option to assign a styleClass
Developer	SVY-12580	Double-clicking variables in the lower part of the Form Hierarchy Viewer doesn't open them
Developer	SVY-12541	Command line WAR Export: ability to blacklist plugins
Developer	SVY-12577	Navigator view "link with editor" icon - use new icon
Developer	SVY-12576	(Fast) client launch button - persist preference even between development sessions
Developer, NGClient	SVY-12594	elements.myBootstrapElement.setLocation(x,y) gives warnings in developer
Developer, Documentation	SVY-12552	Open source guide
Developer	SVY-12646	Deleting a super tabPanel doesn't remove all the overrides on child forms
Extensions, NGClient	SVY-12559	Tab Sequences do not work when a form is contained in sideNav
Extensions, NGClient	SVY-12556	bootstrap combo box does not support the fallback valuelist
Extensions, NGClient	SVY-12662	AG Grid - OnRecordSelection
Extensions, NGClient	SVY-12670	AG Grid grouping problem
Extensions, NGClient	SVY-12634	AG Grid - Column Headers
Extensions, NGClient	SVY-12630	AG Grid - Hardcoded language
Extensions, NGClient	SVY-12645	AG Grid - Multiselect
Extensions, NGClient	SVY-12628	AG Grid - Column Chooser
Extensions, NGClient	SVY-12635	AG Grid - Speed Issue with large number of columns
Extensions, NGClient	SVY-12627	AG Grid - Grouping
Extensions, NGClient	SVY-12626	AG Grid - Icons
Extensions, NGClient	SVY-12644	AG Grid - Editable Behavior
Extensions, NGClient	SVY-12661	AG Grid - restoreColumnState Function Return
Extensions, NGClient	SVY-12643	AG Grid - Arrowing Down
Extensions, NGClient	SVY-12704	Since framework update, I receive "same lib with lower version found"
Extensions, NGClient	SVY-12553	Servoy extra table doesn't work with related valuelists
Extensions, NGClient	SVY-12618	Servoy Extra Table does not empty when foudset becomes 0 records from a foundset.loadRecords (anotherFoundset) when paginated
Extensions, NGClient	SVY-12579	Servoy-extra table does show blank lines
Extensions, NGClient	SVY-12638	Select2Tokenizer no valuelist items with custom valuelist and containSearchText
Extensions, NGClient	SVY-12604	select2tokenizer jumps to top selection
NGClient	SVY-12305	tabs look different on internet explorer versus chrome
NGClient	SVY-12534	Can't change max of checkgroup component
NGClient	SVY-12545	A form in list view that does not have a body part results in NPE (in NG client)

NGClient	SVY-12537	Log messages due to color value mismapping in Sablo?
NGClient	SVY-12531	improve the DAL.setRecord cyclic code
NGClient	SVY-12555	Strange behavior in Servoy 8.2.3 -releaseNumber 3109 (frozen clients and sockets-connections)
NGClient	SVY-12532	aggregates not updated in NGClient
NGClient	SVY-12274	url rewrite to loginpage is clearing custom query string
NGClient	SVY-12595	Values don't fit in combobox popup in NGclient
NGClient	SVY-12649	Illegal state: view ports end index 50 is bigger then the size 38
NGClient	SVY-12387	Text Field element does not update correctly onRecordSelection compared to Bootstrap version
NGClient	SVY-12651	Table Component CSS
NGClient	SVY-12671	Return element name to key listener callback.
NGClient	SVY-12702	custom onSort for calculation in combination with AG datatable courses endless sort/loop
Server	SVY-12409	servoy.selectINValueCountLimit - make this option available per datasource
Server	SVY-12632	Server closed headless clients and became unresponsive
SmartClient	SVY-12681	joda time is now a smart client dependency
SmartClient	SVY-12655	Be able to run the SmartClient without webstart.
SmartClient	SVY-12656	native lib support for the bootstrapper
SmartClient	SVY-12654	starting SmartClient with Bootstrapper that doesn't need webstart.
