

2019.09_RC

Components	Key	Summary
API	SVY-13950	Joins added to the SQL underlying a foundset through a find/search aren't available in the QBSelect
API	SVY-13830	API to recalculate unstored calculation/invalidate cached unstored calculation values
Developer	SVY-13843	Css position overrulling a value to `not set` isn't working
Developer	SVY-13734	Goto global method button not clickable in ValueList editor
Developer	SVY-13876	upgrade SPM to angular 8
Developer	SVY-13664	Incorrect warning Variable X hides a property
Developer	SVY-13905	Place Fields Wizard: CSS Position Container: Zoom
Developer	SVY-13868	Highlight of buttons does not highlight outside border
Developer	SVY-13918	Table editor gives error in Data tab for new unsaved table
Developer	SVY-13976	Multiple StartPage's in Developer
Developer	SVY-13919	Servoy preference for default PK sequence type shows sometimes confusing value
Developer	SVY-14022	when i zoom into a container the zoom view does not take full page
Developer	SVY-13914	ie form designer - wrong display
Developer, NGClient	SVY-13592	bootstrapcomponents-label that have an event handler are not passing back parameters
Developer	SVY-13965	i18n filter prevents update
Developer	SVY-13580	Add support for UUID type database columns
Developer	SVY-13920	Server editor: simple version should set sensible defaults
Developer	SVY-13711	Warning messages are shown about a missing dataprovider while dataprovider is set correctly
Developer	SVY-13933	Form Editor: sometimes content of form component is not rendered
Developer	SVY-14067	Creating new solution without security shows wrong warning
Developer	SVY-13894	another overflowing height glitch
Developer, NGDesktop	SVY-13610	NGDesktop: Export from IDE
Developer	SVY-14088	Error saving form (solution data message is unclear)
Developer	SVY-14033	Form editor starts to hang when you copy/paste without deselecting copied element
Developer	SVY-14050	RestWS support for multiple calls of some sort on same endpoint
Developer	SVY-13814	Always write the .dbi file in creationOrderIndex order

Developer	SVY-14042	Updating of base forms when changing child forms.
Developer	SVY-13980	class-less div disrupts rendering form
Developer	SVY-13990	Breakpoint toggle buttons functionality is inverted
Developer	SVY-13992	When dropping NG grid on simple form it does not show up
DLTK	SVY-13778	DLTK frequently does not recognize runtime forms
DLTK	SVY-13825	'includes'-function for string not recognized, but does work
DLTK	SVY-13733	DLTK frequently does not recognize certain web components
Developer, Documentation	SVY-13800	Creating a REST service from Servoy only works when solutiontype is normal, please update documentation!
Developer, Documentation	SVY-13056	war_export command line
Extensions, NGClient	SVY-13961	plugins.window.showFormPopup removes focus from element
Extensions, NGClient	SVY-13574	Move FormComponent (from bootstrap) and ListFormComponent (extra) to servoy -core
Extensions, NGClient	SVY-14028	Bootstrap Typeahead should have the same size as the input field
Extensions, NGClient	SVY-14030	uploading a file twice with servoyextra-fileupload component does not work
Extensions	SVY-13902	jasperreport plugin-> class type issue when passing parameters as a json object
Extensions, NGClient	SVY-14060	Bug when opening form popup twice
Extensions, NGClient	SVY-14046	select2tokenizer creates duplicate in dataprovider
Extensions, NGClient	SVY-14047	Aggrid fails to load valuelist
Extensions, NGClient	SVY-14048	Aggrid, adding a new record, saving record, doesn't update grid
Extensions, NGClient	SVY-13866	When tabbing out of aggrid a Type Error is uncaught
Extensions, NGClient	SVY-14035	Issue keeping the state of the data-grid
Extensions, NGClient	SVY-14013	AG Grid's onColumnDataChange receives oldValue as display value when value list is used
Extensions, NGClient	SVY-13718	File component multi file upload
Extensions, NGClient	SVY-13901	Changing a date in a default datepicker with the 'MMM dd, yyyy' format causes an error
NGClient	SVY-13745	Resizing with anchored elements
NGClient	SVY-13746	NG, making fields visible in table
Extensions, NGClient	SVY-13700	ListFormComponent containing another ListFormComponent causes Maximum call stack size exceeded
Developer, NGClient	SVY-13865	Can not choose correct calculation in tooltip text property
Extensions, NGClient	SVY-13808	Record index in foundset does not change when using tab in aggrid grouping table

NGClient	SVY-13792	SplitPane % dividerLocation doesn't work well with simpleCSS positioning
NGClient	SVY-13648	getJSONProperty of a boolean value with default does not return the default value
NGClient	SVY-13938	AutoFill of browser forces values into fields with valuelists that normally wouldn't allow these values
NGClient	SVY-12858	i18n.setLocale clears custom valuelist
NGClient	SVY-13877	TabIndex updates too late in NG Client
NGClient	SVY-13753	Removing a JSLayoutContainer from a form
NGClient	SVY-14027	onShow is getting called when form is hidden in tablespanel
NGClient	SVY-14026	listformcomponent not respecting tabsequence
NGClient	SVY-13994	Request additional function on Bootstrap Calendar Component
NGClient	SVY-13959	Flash of '<empty>' in tab title on logout with redirect to login (regressions 8.4 > 2019.06)
NGClient	SVY-13937	null-pointer exception when showing a form in modal window in servoy 8.3.3
NGClient	SVY-13587	Listformcomponent is missing row highlight and onRecordSelect event
NGClient	SVY-13612	implement GetHttpSessionConfigurator.checkOrigin(header)
NGClient	SVY-13857	loadRecordsAsync times out
NGClient	SVY-14062	AG Grid - Servoy Bug - onColumnDataChange is not functioning properly when the gridOption singleClickEdit is used as well as a valuelist.
NGClient	SVY-14006	Related foundset doesn't update in browser after adding a new record to it.
NGClient	SVY-14040	aggrid filter state and filtering by multiple values
NGClient	SVY-14051	datagrid updating problem
NGClient	SVY-13872	using a date formatter on a date field a form field don't display the right value
NGDesktop	SVY-12737	NGDesktop: File Plugin: Read File
NGDesktop	SVY-14078	add method to plugins.ngdesktopfile for deleting files
NGDesktop	SVY-13996	spike: investigate how a ngdesktop file plugin could work for transferring bytes from an to client
NGDesktop	SVY-13988	create ngdesktoputils service with an executeProgram(yyyy) method
NGDesktop	SVY-13970	NGDesktop: Closing solution should close window ?
Runtime	SVY-14100	databaseManager.createDataSourceByQuery issue
Server	SVY-13854	Need to be able to rename log table.
Server	SVY-14068	Continuous messages in log following server restart
WebClient	SVY-13985	Table view selection bug

WebClient	SVY-13771	application.showURL() does not work for files with special characters
