

2021.06

RC3

Some tweaks for NG2 and the detection of new/other packages, so we do install those new/other packages and make sure they are build correctly.

Components	Key	Summary
Developer	SVY-16213	Subclipse repo url isn't working / wrong
Developer	SVY-16206	Switching between solution breaks developer
Extensions	SVY-16222	servoy-service/file creates internal error when using a UUID
Runtime	SVY-16209	save functionality doesn't work on view foundsets
Server	SVY-16227	Solutions in WAR file not running in 2016.6 RC2

RC2

Tweaked Postgresql starting, trying to fix the problem that the database is not always coming up when starting the developer.

Tweaked and fixed the Angular compile of NG2 and how you can develop/debug packages for NG2: <https://wiki.servoy.com/display/DOCS/Developing+packages+for+NGClient2>

Components	Key	Summary
Developer	SVY-16188	Accidentally opening a PDF from media in developer shows servoy theme properties (empty)
Developer	SVY-16190	Servoy 2021.06RC1 shows wrong active icons in console screen
Extensions	SVY-16191	JWT token loses data
Extensions	SVY-16201	Expired JWT token throws error
NGClient	SVY-16148	[ng2] error showing popup form
NGClient	SVY-16150	[ng2] Padding/Border for bts calendar
NGDesktop	SVY-16086	NGDesktop: make building fully a background task that sends an email with download links when ready
Runtime	SVY-16192	registered viewfoundsets can't be set as datasource on forms
Server, SmartClient	SVY-16174	Starting clients from deployed war returns Http 404-not found

RC1

Components	Key	Summary
Developer	SVY-15712	While contextmenu offers option to add FormComponent to Workingset, nothing happens when you do
Developer	SVY-16032	disabled 'Marquee selects only elements fully in lasso' does not work
Developer, DLTk	SVY-16000	Step Return (F7) while debugging instead break on entry on the first method called from the method from which should be returned
Developer	SVY-15987	upgrade to the latest eclipse (and tycho, and chromium)
Developer	SVY-15986	Breakpoint Properties - Condition not using dark mode first time
Developer	SVY-15960	Field created as bytea type instead of uuid in Postgres DB
Developer	SVY-15910	Restore of attributes isn't restoring the value.

Developer	SVY-15877	Auto Enter Lookup Value (Integer) returns Type mismatch
Developer	SVY-15864	Responsive FE: Outline Context Menu allows Move Up/Down for layouts, not for components
Developer	SVY-15861	Outline view 'Group Elements' option: group Web Components by their individual types, not all of them together under 'components'
Developer	SVY-15860	"Revert Form"option missing in the context menu of the non-classic Form Editor(s)
Developer	SVY-15805	Using quick fix for converting deprecated component leaves invalid tag
Developer	SVY-15799	Expose containers from a formComponent
Developer	SVY-15773	command line export fails due to -b <none> -l <none>
Developer	SVY-15735	Missing buildmarker on unresolved enumerator values in relation
Developer	SVY-15859	Outline and Responsive FE out of sync on child form when adding new (root) container to super form
Developer	SVY-16102	some context menu icons are not visible in the dark theme
Developer	SVY-16083	Exporting i18n new strings does not work
Developer	SVY-16116	UUID (DB Native) does not allow auto-enter of user id
Extensions, NG Client	SVY-14870	Extra table with responsive dynamic height creates scrollbars in some browsers
Extensions, NG Client	SVY-16072	datagrid loading spinner appearance disrupts UX
Extensions	SVY-16039	HeadlessClient.shutdown() can wait forever if it is not a force shutdown and there is another call executing
Extensions, NG Client	SVY-15971	Add column group option to aggrid
Extensions, NG Client	SVY-15930	Powergrid: onCellClick doesn't work if there is no dataprovider
Extensions, NG Client	SVY-15848	Datatable autoHeight does not calculate correctly
Extensions, NG Client	SVY-15810	onSelectedRowsChanged event of the Datagrid uncertainties
Extensions	SVY-15787	Wrong functions list and help for plugins.dialogs
Extensions, NG Client	SVY-16084	[AGGrid] filter is not applied on related foundset at onRecordSelection
Extensions, NG Client	SVY-16119	AGGrid not updating when using form edit with typeahead
Extensions	SVY-15895	HttpClient seems to be reusing Http Connections, which might not be valid anymore
Extensions	SVY-15970	Ability to set the User-Agent on the HTTP Plugin
Extensions	SVY-16030	Enable TLS on Rabbit MQ
Extensions, NG Client	SVY-16062	Component Bootstrapcomponents-choicegroup not working with valuelist with null ^ values
Extensions, NG Client	SVY-16080	Servoy default Calendar component - 't' shortcut for today's date
Extensions, NG Client	SVY-16115	svyGMaps is missing visible property

Extensions, NG Client	SVY-16137	[NG2] move all package to there own git repo
NGClient	SVY-14764	Web Components: new clientside Foundset instances get created for same serverside Foundset instance
NGClient	SVY-16120	AG-GRID Group by valuelise with null value.
NGClient	SVY-16094	The useLocalDateTime setting isn't functioning when set on a table column
NGClient	SVY-16077	[NG2] port google maps component over
NGClient	SVY-16074	Field formatting not happening after Enter is pressed
NGClient	SVY-16042	Lookup value through relation does not work in NG
NGClient, Runtime	SVY-15954	Setting a JSON property on a Web Component through the solutionModel that isn't defined in the spec doesn't log a warning
NGClient	SVY-15950	NG Client session mngmt messed up when using duplicate Tab feature in browser
NGClient, Runtime	SVY-15905	Allow creating new anonymous Web Components through the Solution Model
NGClient, Runtime	SVY-15879	Ability to add to a layout container through the solutionModel, without specifying position
NGClient	SVY-15812	Add a Form Container component to servoy-core
NGClient, Runtime	SVY-15811	get/findLayoutContainer(s)(...) only find first child if called on a LayoutContainer
NGClient	SVY-16127	bootstrap-components combobox accessible security setting not working at runtime
NGClient	SVY-16089	NG_BLOCK_DUPLICATE_EVENTS prevents click from any element with different name
NGClient	SVY-16118	listformcomponent is broken
NGClient	SVY-16164	ChartJS error when refreshing mixed bar-line chart
NGClient	SVY-16047	elements containedForm returns null
NGClient	SVY-16068	servoyextra-splitpane divider flickering
NGClient	SVY-16024	Bootstrap Tabpanel enhancement
Runtime	SVY-15489	Cannot use QBSelct.getParameter(...) inside arguments of for example .isin(sql:String, arguments:Array)
Runtime	SVY-16026	Upgrade UAP-JAVA servoy fork
Runtime	SVY-15982	ViewfoundSet.forEach throws an exception
Runtime	SVY-15962	containers created with the solution model look weird in the designer
Runtime	SVY-15941	Rounding issue with aggregates
Runtime	SVY-15928	ViewFoundSet from query fails on numeric column type in query
Runtime	SVY-15919	Let controller.focusFirstField() return a boolean value to indicate whether an element was found to focus, which whether a requestFocus call was made
Runtime	SVY-15918	Option to skip readOnly fields when doing controller.focusFirstField()

Runtime	SVY-15896	Improve performance of saving (related) records
Runtime	SVY-15883	CC on a variable of type JSLayoutContainer offers wrong suggestions
Runtime	SVY-15867	provide info the changed dataprovider in on(Element)DataChange
Runtime	SVY-15824	solutionmodel function getJSONProperties would be nice to have
Runtime	SVY-15806	Using grouping on form causes exception
Runtime	SVY-16025	Update to Java 16 causes crash in svyIO
Runtime	SVY-16078	Cannot get layout containers using an extended form.
Server	SVY-14604	Optimize loadRecords(pk) to not fire the foundset PK query if the PK is already loaded in memory
Server	SVY-16133	[warning] Could not create index an i18n messages table 'i18n' in server 'servername_x'.
Server	SVY-16019	Log entries for org.sablo.websocket.WebsocketEndpoint or org.sablo.BrowserConsole ont have a clientid and solutionName property set
Server	SVY-15989	Dynamically clone DB Servers or pair 1 connection with 1 client
Server	SVY-16070	Allow data model (database) changes doesn't work when included in the .servoy
