

2022.09

2022.9.2

Components	Key	Summary
Developer	SVY-17541	Upgrading packages causes code corruption
Extensions	SVY-17628	httpClient creates too many threads
Extensions, NGClient	SVY-17616	Typeahead doesn't show correct value after search

2022.9.1

Components	Key	Summary
Runtime	SVY-17580	Some java calls are not working anymore when calling them from Servoy Code
Developer, Runtime	SVY-17570	CVE for commons-text version 1.5-1.9
Extensions	SVY-17560	404 error when executing requests using http plugin
Extensions	SVY-17509	Followup of SVY-17406: HTTP Post and inputStream vs byte[]
NGClient	SVY-17473	Error when closing popups with Ag Grid
Developer	SVY-17392	exported_web_objects.properties not updated

this release also includes all the fixes that went into [2022.03.3 LTS](#)

2022.9.0:

fixed regression in [SVY-16937](#), and a few fixes for the new HTTP Plugin that is now based on Apache Http Client 5.1

RC3:

Components	Key	Summary
Developer	SVY-17474	Servoy 2022.09 breaks JSDoc
Developer	SVY-17456	TiNG doesn't build upon startup despite previous build failed
Developer	SVY-17448	Copy and clean action
Developer	SVY-17437	Error during WAR export
Extensions, NGClient	SVY-17329	AG Grid - Column Edit Form - Not Focussing Element on each onShow
NGClient	SVY-17440	Default "latest" theme does not give an NG2 version
NGClient, Runtime	SVY-17485	Internal FoundSet listeners in Web Components seemingly not cleared properly when changing the foundsets
NGClient	SVY-17473	Error when closing popups with Ag Grid
NGClient	SVY-17427	Ti client will not start correctly
NGClient	SVY-17490	nullPointer on invoke internalApi method that takes a record(Ref) as param oif model property of type foundset is null
NGClient	SVY-17478	WAR Deployment for updating Application Server doesn't work

RC2:

Components	Key	Summary
Developer	SVY-17434	Command line war export with -dbi generates error markers for unused/hidden tables that are not generated in developer ui export
Developer	SVY-17437	Error during WAR export

Developer	SVY-17452	New form dialog in dark theme datasource not visible
Developer	SVY-17450	Properties pane banding is missing in 2022.9_rc1
NGClient	SVY-17427	Ti client will not start correctly
NGClient	SVY-17429	Session without websocket are not closed and hangs on server

RC1:

Components	Key	Summary
API, Developer	SVY-17201	Change onRecordDelete example
API	SVY-17181	controller.getDesignProperties() returns a java hashmap. I think it would be nice to have instead as a standard JS object or a simple array of objects
API	SVY-17018	support databaseManager.updateTableFilterParam(...)
Developer	SVY-16267	Build marker missing for bootstrapcomponents-tablesspanel
Developer	SVY-17353	NG Grid column configurator does not work with relations
Developer	SVY-17349	SVG Images Rendered Full Screen
Developer	SVY-17285	Creating a new Solution not possible - Servoy 2022.6 (Final) - [NG2]
Developer	SVY-17284	Building process every time when switching solution - Servoy 2022.6 (Final) - [NG2]
Developer, NGClient	SVY-17283	Adding and removing related records in LFC does not apply rowStyleClassDataProvider correctly
Developer	SVY-17273	Show handler jsDoc as tooltip in properties view in developer
Developer	SVY-17262	War Export generated references to Titanium NGClient only components
Developer	SVY-17257	Doing first time a war export in Servoy developer you can't do it a second time
Developer	SVY-17256	Creating war export from developer with empty password result in error
Developer, NGClient	SVY-17255	upgrade angular to 14.x and node js to the latest LTS
Developer, NGDesktop	SVY-17252	Update fullCalendar2 to Bootstrap5 - Servoy 2022.6 RC 2 - [NG2]
Developer, Runtime	SVY-17236	add a mask (table column in the relation editor) that tells the system to ignore this relation item when the value is null
Developer, Runtime	SVY-17235	support "in" in the relation editor
Developer, Runtime	SVY-17210	upgrade developer to latest eclipse (and check other 3rd party jars)
Developer, Runtime, API	SVY-17166	Make hiding forms clearer - even with nested tabs
Developer	SVY-17205	Files discarded through git are being changed back
Developer	SVY-17187	i18N values not shown in NG2 editor

Developer	SVY-17141	Log table should not use servoy sequence by default
Developer, Server	SVY-17093	While Servoy ships with Apache Commons Logging, the log4j-jcl bridge is not included
Developer	SVY-17045	add sidenav properties to make it configurable
Developer	SVY-17297	showLoadingIndicator (true, false)
Developer, Server	SVY-17406	HTTP Post request breaks in nightly build
Developer, NGClient	SVY-17291	support adding a responsive container in a responsive container
Developer	SVY-17304	setting log level and tracing doesn't work in admin page (from developer)
Developer	SVY-17307	make sure the startRMI property is set through ui or through the given servoy.properties file
Developer	SVY-17279	Icon missing for NG2 build
Developer	SVY-17294	toggle the defaults of what is started shown for NG1 or TiNG
Extensions	SVY-15350	REST API - Option to Not Generate Response Header Values for USer Properties
Extensions, NGClient	SVY-17363	Navbar throwing error when using Titanium Angular
Extensions, NGClient	SVY-17356	TiNG: Bootstrap combobox showAs html isn't working
Extensions	SVY-17313	Issue with suppressColumnFilter of ngDataGrid plugin
Extensions, NGClient	SVY-17312	NG2 - ag-grid groupingtable - Multi select foundset selection out of sync when clicking fast
Extensions, NGClient	SVY-17272	2 htmlearea components on a form interfere with each other
Extensions, NGClient	SVY-17229	nested splitpanes will not layout correctly for a vertical tab when divLocation is % value
Extensions	SVY-17153	Event: onCollapsibleHidden not triggered when opening other collapsible
Extensions	SVY-17147	NG2 - ImageMedia component is not migrated
Extensions, NGClient	SVY-17127	deprecate the pane[] property of the splitpane
Extensions	SVY-17124	Making async requests using the HTTP plugin starts a thread for each requests, while concurrency is limited to hardcoded 5 concurrent requests
Extensions, NGClient	SVY-16938	Select2Tokenizer - ng1 and ng2 issues
Extensions, NGClient	SVY-17360	TiNG: Tabpanel property containerStyleClass isn't working
Extensions, NGClient	SVY-17165	Add AGGrid support for onShow/onHide on the server side scripting
NGClient	SVY-17376	Page loading in a loop when redirected by external oauth login in TiNG
NGClient	SVY-17361	TiNG: CssPosition container isn't respecting given height / width
NGClient	SVY-17345	NG Titanium 2022-06 Error on opening of a form
NGClient	SVY-17343	tabIndex doesn't change in NG client

NGClient	SVY-17334	When extending a form with tab panels we have issues overriding a tab for the first time
NGClient	SVY-17333	NG issue with element.setSize on anchored elements
NGClient	SVY-17311	Calendar popup does not jump to the set date
NGClient	SVY-17286	Auto open submenu in bootstrap navbar
NGClient	SVY-17282	Layout of CSS form on CSS tab panel incorrect in NG2 only
NGClient	SVY-17228	WebComponent: internalApi method returning an int[] throws exception
NGClient	SVY-17221	DataGrid-Filter with 2 (or more) search-criterias
NGClient	SVY-17214	onAction does not work on TextBox and ImportGroup
NGClient	SVY-17211	remove the "testing code" in TiNG
NGClient	SVY-17206	Keylistner not working on HtmlArea
NGClient	SVY-17174	Filter in DataGrid for empty/null values
NGClient	SVY-17119	.war file creation excluding .jar files causing unusable application
NGClient	SVY-17094	select2tokenizer requestFocus() does not work
NGClient	SVY-17046	Improve what SVY-17013 does by using classes in 2 scenarios instead of style
NGClient	SVY-16929	Create a componentContainer component
NGClient	SVY-16927	[ng2] replace deprecated componentfactoryresolver
NGClient	SVY-16793	Support for html in NG-client tooltips (NGGrid)
NGClient	SVY-16516	Setting a default value for plugins.dialogs.showSelectDialog()
NGClient	SVY-17391	The method removeStyleClasses is not working on TiNg (NG-2)
NGClient	SVY-17357	TiNG: container.removeStyleclass not working
NGClient	SVY-16937	Fully expose setValueListItems on webcomponents
NGClient, Runtime	SVY-17231	Headless clients stop updating NG UI when 4th one is started
NGClient	SVY-17377	Servoy collapsible component does not clear forms of the form state
NGDesktop, Server	SVY-17299	HTMLArea (TinyMCE) doesn't work after exporting war file to Tomcat - Servoy 2022.6 [NG2]
Runtime	SVY-17258	Upgrade Rhino to the latest release
Runtime	SVY-17209	New aggregation for distinct count
Runtime	SVY-17178	Why is the ViewRecord api not on par with the JSRecord api?
Runtime	SVY-17177	Removing a global method doesn't actually remove the global method.

Runtime	SVY-15543	qbSelect.sort.clear() doesn't remove joins solemnly added because of related sorts
Runtime, Server	SVY-12272	Ability to specify UPPER(columnName) or LOWER(columnName) for sorting
Runtime, Server	SVY-12271	Support for specifying whether to sort with nulls first or last
Server	SVY-17320	Allow data model changes for in-memory databases
Server	SVY-17240	A check that generates warning messages (when creating in-mem table) should be more relaxed
Server	SVY-17161	Log server registers original database
Server	SVY-17346	Broadcaster over RabbitMQ not getting the message
