

WEBCONSTANTS

Constants Summary

String

[WEBCLIENT_TEMPLATES_DIR](#)

Property that can be set using application.

Constants Details

WEBCLIENT_TEMPLATES_DIR

Property that can be set using `application.putClientProperty()`, it sets the `servoy_web_client_default.css` location directory in the templates dir for this client

Returns

String

Sample

```
// set this if you want to set the css path to the servoy_web_client_default.css file that you can specify
// per client
// by default this file resides in '/servoy-webclient/templates/default/servoy_web_client_default.css'
// and you will override the 'default' in that url so setting it to myclient1 will result in:
// by default this file resides in '/servoy-webclient/templates/myclient1/servoy_web_client_default.css'
application.putClientProperty(APP_WEB_PROPERTY.WEBCLIENT_TEMPLATES_DIR, 'myclient1');
```
