Property Details

`_super`

Provides access to the methods of the parent of this form.

Returns

RuntimeForm

Sample

```
forms.customer._super.some_method();
```

`controller`

Get the controller of the form.

Returns

controller

Sample

```
forms.customer.controller.enabled = !forms.customer.controller.enabled;
```

`elements`

Get an array with the elements in the form.

Returns

elements

Sample

```
var elems = forms.customer.elements;
application.output("This form has " + elems.length + " named elements.")
for (var i=0; i<elems.length; i++)
    application.output(elems[i].getName());
```

`foundset`

Get the foundset of the form.

Returns

JSFoundSet

Sample

```
application.output("selected index in form foundset: " + forms.customer.foundset.getSelectedIndex());
```
